**The Source** John Clayton, Nils Jasma What is the origin of the world and of life itself?

Did a series of accidents and evolution bring about the world as we know it?

Or is there a design and purpose behind it all?

And if there is a design, is there an ultimate designer?

A number of years ago, John Clayton, a second-generation atheist and respected scientist and teacher, set out to disprove the Bible from a scientific point of view. Instead, his six-year study brought him to a profound faith in the God of the Bible.

Now, in this highly informative and easy to understand book, John Clayton and Nils Jansma -- a geotechnical engineer and geologist -- present convincing evidence that the Bible and the facts of science agree. As the public moves away from a belief in God as Creator of our heaven and earth, it becomes imperative that all believers be well informed on this vital subject. This book will become a resource you will use again and again.
