## Biochemistry of Lipids, Lipoproteins and Membranes (New Comprehensive Biochemistry)

Research on the biochemistry and molecular biology of lipids and lipoproteins has experienced remarkable growth in the past 20 years, particularly with the realization that many different classes of lipids play fundamental roles in diseases such as heart disease, obesity, diabetes, cancer and neurodegenerative disorders. The 5th edition of this book has been written with two major objectives. The first objective is to provide students and teachers with an advanced up-to-date textbook covering the major areas of current interest in the lipid field. The chapters are written for students and researchers familiar with the general concepts of lipid metabolism but who wish to expand their knowledge in this area. The second objective is to provide a text for scientists who are about to enter the field of lipids, lipoproteins and membranes and who wish to learn more about this area of research. All of the chapters have been extensively updated since the 4th edition appeared in 2002.

### Key Features:

- \* Represents a bridge between the superficial coverage of the lipid field found in basic biochemistry text books and the highly specialized material contained in scientific review articles and monographs.
- \* Allows scientists to become familiar with recent developments related to their own research interests, and will help clinical researchers and medical students keep abreast of developments in basic science that are important for subsequent clinical advances.
- \* Serves as a general reference book for scientists studying lipids, lipoproteins and membranes and as an advanced and up-to-date textbook for teachers and students who are familiar with the basic concepts of lipid biochemistry.

### **From reader reviews:**

#### **Anthony Sierra:**

This Biochemistry of Lipids, Lipoproteins and Membranes (New Comprehensive Biochemistry) tend to be reliable for you who want to be described as a successful person, why. The reason of this Biochemistry of Lipids, Lipoproteins and Membranes (New Comprehensive Biochemistry) can be one of several great books you must have is definitely giving you more than just simple reading through food but feed you with information that possibly will shock your earlier knowledge. This book is definitely handy, you can bring it everywhere and whenever your conditions throughout the e-book and printed types. Beside that this Biochemistry of Lipids, Lipoproteins and Membranes (New Comprehensive Biochemistry) giving you an enormous of experience for example rich vocabulary, giving you tryout of critical thinking that we realize it useful in your day action. So , let's have it and luxuriate in reading.

#### **Kim Deyoung:**

Spent a free time and energy to be fun activity to accomplish! A lot of people spent their sparetime with their family, or all their friends. Usually they accomplishing activity like watching television, going to beach, or picnic in the park. They actually doing same task every week. Do you feel it? Do you need to something different to fill your current free time/ holiday? Could possibly be reading a book is usually option to fill your free time/ holiday. The first thing that you will ask may be what kinds of reserve that you should read. If you want to test look for book, may be the guide untitled Biochemistry of Lipids, Lipoproteins and Membranes (New Comprehensive Biochemistry) can be fine book to read. May be it might be best activity to you.

#### **Willie Thacker:**

Biochemistry of Lipids, Lipoproteins and Membranes (New Comprehensive Biochemistry) can be one of your beginner books that are good idea. We all recommend that straight away because this publication has good vocabulary that could increase your knowledge in vocab, easy to understand, bit entertaining but delivering the information. The author giving his/her effort to set every word into delight arrangement in writing Biochemistry of Lipids, Lipoproteins and Membranes (New Comprehensive Biochemistry) nevertheless doesn't forget the main position, giving the reader the hottest along with based confirm resource information that maybe you can be among it. This great information can certainly drawn you into brand-new stage of crucial pondering.

#### **Amy Gutierrez:**

A lot of people said that they feel fed up when they reading a reserve. They are directly felt it when they get a half elements of the book. You can choose the particular book Biochemistry of Lipids, Lipoproteins and Membranes (New Comprehensive Biochemistry) to make your personal reading is interesting. Your skill of reading ability is developing when you such as reading. Try to choose basic book to make you enjoy to study

it and mingle the feeling about book and reading through especially. It is to be very first opinion for you to like to wide open a book and read it. Beside that the guide Biochemistry of Lipids, Lipoproteins and Membranes (New Comprehensive Biochemistry) can to be your friend when you're really feel alone and confuse using what must you're doing of the time.
