Criminal Profiling: An Introduction to Behavioral Evidence Analysis

Brent E. Turvey

Criminal Profiling: An Introduction to Behavioral Evidence Analysis Brent E. Turvey

Focused on Behavioral Evidence Analysis (BEA), a method of criminal profiling developed and refined by the author over the past 15 years, the fourth edition of Criminal Profiling maintains the same core foundation that made previous editions best sellers in the professional and academic community worldwide. Written from practicing behavioral analysts and aspiring students alike, this work emphasizes an honest understanding of crime and criminals. Newly updated, mechanisms for the examination and classification of both victim and offender behavior have been improved. In addition to refined approaches towards victimology, crime scene analysis, motivation and case linkage, a chapter on sexual deviance has been added as well.

With prior edition in wide use as a primary text in criminal justice, law, criminology, and behavioral science programs around the world, Criminal Profiling, Fourth Edition remains essential for students and professionals alike.

- Outlines the scientific principles and practice standards of BEA-oriented criminal profiling, with an emphasis on applying theory to real cases.
- Contributing authors from law enforcement, academic, mental health and forensic science communities provide a balance perspective.
- Complete glossary of key terms Companion Web site includes all appendices from previous volumes and figure collection at <http://www.elsevierdirect.com/companions/9780123852434>
- Manual Web site provides an instructor's manual for each chapter, powerpoint slideshows, and case reports from Brent Turvey's work.
