## **Smithsonian Discover: Earth** Dorothea DePrisco

With *Smithsonian Discover: Earth*, kids can take a tour of Earth's fiery core, scale Mount Everest, scuba-dive in the Great Barrier Reef, and hunker down during a hurricane, all without ever leaving the safety of their living rooms. A must-have for any kid who calls Earth home, this engaging book contains three sections: Amazing Earth (all about the inside and outside of the planet), the Blue Planet (covering awesome oceans, raging rivers, and great lakes), and Wild Weather (which explains the science of weather and goes inside natural disasters). Each page contains science presented simply, and facts backed by the museum professionals of the Smithsonian.

The compelling content is only the tip of the iceberg (only a tenth of which floats above the ocean's surface, as you'll learn). This engaging title also delivers hands-on activities like you would find at the Smithsonian. Bound right into the book are 12 Earth fact cards, a large double-sided map of the world, and materials to construct a three-dimensional paper globe. Though we walk its surface every day, *Smithsonian Discover: Earth* will surely teach kids that Earth is one fascinating planet!
