Pharmacotherapeutics for Advanced Practice Virginia Poole Arcangelo, Andrew M. Peterson
Established in its first two editions as the standard advanced pharmacotherapeutics text for nurse practitioners, students, and physician assistants this completely revised and updated new edition offers guidelines on prescribing drugs for over 50 common diseases and disorders. Organized by disorder rather than drug class this new edition includes algorithms and case studies that illustrate critical thinking aspects of prescribing, such as drug selection, lifespan considerations, therapeutic drug monitoring, adverse reactions, unexpected outcomes, and when to change therapy. The third edition includes coverage of pharmacogenomics and travel medicine. The section on Depressive Disorders discusses weaning patients from SSRIs and changing from one medication to another. Switching from brand names to generics is discussed in various chapters.
