Carter Phipps

Evolutionaries: Unlocking the Spiritual and Cultural Potential of Science's Greatest Idea Carter Phipps

“Carter Phipps brilliantly expands our understanding of evolution by showing us that a new science is emerging—one that will holistically integrate our understanding of consciousness, cosmology, and evolution.”

—Deepak Chopra

Blending cutting-edge ideas with incisive spiritual insights, *Evolutionaries* is the first popular presentation of an emerging school of thought called “evolutionary spirituality.” Carter Phipps, the former executive editor of *EnlightenNext* magazine, asserts that evolution is not only a scientific but also a spiritual idea in a book whose message has the power to bring new meaning and purpose to life as we know it. Readers will be fascinated and enlightened by *Evolutionaries*, a book which Deepak Chopra, the world-renowned author of *The Seven Spiritual Laws of Superheroes, Jesus, and Buddha*, says “is going to help create a worldview that will influence our vision of the future direction of evolution and also our role in consciously participating in it.”
