*Build a Kids' Play Yard* is a complete guide to building a wide range of outdoor play structures, including a central tower to which a swing set and monkey bar can be attached in various configurations or built as stand-alones. In addition, there are various sandboxes, a playhouse, a teeter-totter, a ground-hugging balance beam, and even a kids'-size picnic table. Beginning with chapters on planning, tools, materials, and construction and finishing, the book then presents the projects themselves in lucid presentations that have become Creative Homeowner hallmarks. All projects were designed to conform with U.S. Consumer Product Safety Commission guidelines. For any parent considering play yard equipment, this book is an essential guide.
