Neural Networks and Artificial Intelligence for Biomedical Engineering (IEEE Press Series on Biomedical Engineering) Donna L. Hudson, Maurice E. Cohen

Using examples drawn from biomedicine and biomedical engineering, this essential reference book brings you comprehensive coverage of all the major techniques currently available to build computer-assisted decision support systems. You will find practical solutions for biomedicine based on current theory and applications of neural networks, artificial intelligence, and other methods for the development of decision aids, including hybrid systems.

Neural Networks and Artificial Intelligence for Biomedical Engineering offers students and scientists of biomedical engineering, biomedical informatics, and medical artificial intelligence a deeper understanding of the powerful techniques now in use with a wide range of biomedical applications.

Highlighted topics include:

- Types of neural networks and neural network algorithms
- Knowledge representation, knowledge acquisition, and reasoning methodologies
- Chaotic analysis of biomedical time series
- Genetic algorithms
- Probability-based systems and fuzzy systems
- Evaluation and validation of decision support aids

From reader reviews:

Sarah Alexander:

Why don't make it to be your habit? Right now, try to ready your time to do the important take action, like looking for your favorite book and reading a book. Beside you can solve your long lasting problem; you can add your knowledge by the reserve entitled Neural Networks and Artificial Intelligence for Biomedical Engineering (IEEE Press Series on Biomedical Engineering). Try to stumble through book Neural Networks and Artificial Intelligence for Biomedical Engineering (IEEE Press Series on Biomedical Engineering) as your pal. It means that it can for being your friend when you sense alone and beside regarding course make you smarter than previously. Yeah, it is very fortunated to suit your needs. The book makes you far more confidence because you can know every thing by the book. So , we need to make new experience as well as knowledge with this book.

Jose Reed:

This Neural Networks and Artificial Intelligence for Biomedical Engineering (IEEE Press Series on Biomedical Engineering) book is not ordinary book, you have after that it the world is in your hands. The benefit you have by reading this book is information inside this publication incredible fresh, you will get details which is getting deeper you actually read a lot of information you will get. This kind of Neural Networks and Artificial Intelligence for Biomedical Engineering (IEEE Press Series on Biomedical Engineering) without we recognize teach the one who reading it become critical in pondering and analyzing. Don't end up being worry Neural Networks and Artificial Intelligence for Biomedical Engineering (IEEE Press Series on Biomedical Engineering) can bring if you are and not make your carrier space or bookshelves' grow to be full because you can have it inside your lovely laptop even cell phone. This Neural Networks and Artificial Intelligence for Biomedical Engineering (IEEE Press Series on Biomedical Engineering) having fine arrangement in word along with layout, so you will not experience uninterested in reading.

Ellen Jorge:

Reading a e-book tends to be new life style in this particular era globalization. With reading through you can get a lot of information that could give you benefit in your life. Together with book everyone in this world can certainly share their idea. Publications can also inspire a lot of people. A great deal of author can inspire their particular reader with their story as well as their experience. Not only the storyplot that share in the textbooks. But also they write about the information about something that you need illustration. How to get the good score toefl, or how to teach your kids, there are many kinds of book that exist now. The authors on this planet always try to improve their ability in writing, they also doing some research before they write to the book. One of them is this Neural Networks and Artificial Intelligence for Biomedical Engineering (IEEE Press Series on Biomedical Engineering).

Nancy Stever:

Beside that Neural Networks and Artificial Intelligence for Biomedical Engineering (IEEE Press Series on Biomedical Engineering) in your phone, it could possibly give you a way to get nearer to the new knowledge or facts. The information and the knowledge you will get here is fresh from oven so don't possibly be worry if you feel like an previous people live in narrow commune. It is good thing to have Neural Networks and Artificial Intelligence for Biomedical Engineering (IEEE Press Series on Biomedical Engineering) because this book offers for your requirements readable information. Do you occasionally have book but you don't get what it's about. Oh come on, that will not end up to happen if you have this within your hand. The Enjoyable set up here cannot be questionable, similar to treasuring beautiful island. Use you still want to miss the idea? Find this book and also read it from at this point!
