Injectable Hydrogels for Regenerative Engineering Gillian Su-Wen Khew

Regenerative engineering, with its ability to foster novel therapeutic techniques and strategies, has emerged as the most versatile and innovative technology of the 21st century. The past few years have seen a significant interest in the development of injectable hydrogels as a delivery system to realize the dream of regenerative engineering. The book will explain synthetic approaches towards developing injectable hydrogels, and the clinical implications and applications of injectable hydrogels for engineering various tissues.

Injectable Hydrogels for Regenerative Engineering is the first of its kind to bring together the fields of injectable hydrogels and regenerative engineering to give a perspective of the emerging therapeutic strategies for a wide audience.
