Instant Anatomy

Robert H. Whitaker, Neil R. Borley

Instant Anatomy Robert H. Whitaker, Neil R. Borley

Instant Anatomy presents anatomy and anatomical relationships in a simple, unique, schematic manner to aid the speedy understanding and retrieval of anatomical facts. It shows structures such as nerves and blood vessels in their entirety, unlike the partial, regional presentations given in most textbooks.

Covering the major aspects of anatomy, each section presents the relevant structures in double page spreads, with clear, full-colour diagrams on the left and concise text for each structure on the right. This new fifth edition includes more surface anatomy such as new myotome maps, bones of the hands and feet, principles of movement at shoulder and hip and images to clarify the understanding of the inguinal region and the lesser sac of the stomach.

Ideal for use alongside a core anatomy textbook, *Instant Anatomy* is the perfect quick reference guide for medical students, surgeons, radiologists and those in many other specialties. The companion website at www.instantanatomy.net with its podcasts and wide ranging multiple choice questions provide invaluable exam preparation.
