The Greatest Hoax: How the Global Warming Conspiracy Threatens Your Future Senator James Inhofe

Americans are over-regulated and over-taxed. When regulation escalates, the result is an increase in regulators. In other words, bigger government is required to enforce the greater degree of regulation. Bigger government means bigger budgets and higher taxes. More simply doesn't mean better. A perfect example is the entire global warming, climate-change issue, which is an effort to dramatically and hugely increase regulation of each of our lives and business, and to raise our cost of living and taxes. In The Greatest Hoax, Senator James Inhofe will reveal the reasons behind those perpetuating the Hoax of global warming, who is benefitting from the general acceptance of the Hoax and why the premise statements are blatantly and categorically false.
