Color, Light & Composition: A Photographer's Guide

Sue Bishop

Color, Light & Composition: A Photographer's Guide Sue Bishop

Expert photographer Sue Bishop has created a visually stunning book focusing on the three most important factors required to create first-rate photos: color, light, and composition. She explains all the basics: how to understand the color wheel; balance complementary and contrasting colors; work with a limited color palette; see the direction and strength of light; use lines within an image, and much more. Enthusiasts will also learn how to make the most of their equipment, utilize advances in camera technology, and balance the technical and creative side of picture taking.
