Grundlagen der Vegetationsentwicklung (German Edition) Ines Heuschkel

Studienarbeit aus dem Jahr 2007 im Fachbereich Geowissenschaften / Geographie - Phys. Geogr., Geomorphologie, Umweltforschung, Note: 1,3, Martin-Luther-Universität Halle-Wittenberg (Institut für Geowissenschaften), Veranstaltung: Unterseminar Physische Geographie, 6 Quellen im Literaturverzeichnis, Sprache: Deutsch, Abstract: Die Arbeit beschäftigt sich mit den Faktoren, die die Grundlagen für die Vegetationsentwicklung schaffen. Dabei wurden jedoch nur einige Faktoren berücksichtigt, da sonst der Rahmen dieser Arbeit bei weitem überschritten worden wäre.

Zunächst werden die abiotischen Einflüsse, denen die Pflanze untersteht, behandelt und in ihren verschiedenen Wirkungsweisen näher beleuchtet. Dabei geht es hauptsächlich um das Licht, die Wärme, das Wasser und die Nährstoffe und die jeweiligen Anpassungsmechanismen der Pflanzen an die Umweltbedingungen, die sich ihnen bieten.

Im Anschluss folgen die biotischen Faktoren (Ausnahme: das Feuer, es zählt zu den abiotischen Einflüssen) und ihre Wirkungsweise im Pflanzenreich.

Den Abschluss bildet eine Zusammenfassung der Gesamtaussage des Textes, in der darauf hingewiesen wird, dass die Faktoren, die in der Arbeit behandelt werden, unter natürlichen Bedingungen beleuchtet und anthropogene Einflüsse weitgehend außen vor gelassen wurden.

Zur Veranschaulichung sind mehrere Abbildungen eingefügt, die die beschriebenen Faktoren an Hand von Beispielen visualisieren und die Aussagekraft des Textes unterstützen.

From reader reviews:

Amanda Lara:

With other case, little men and women like to read book Grundlagen der Vegetationsentwicklung (German Edition). You can choose the best book if you appreciate reading a book. Providing we know about how is important a book Grundlagen der Vegetationsentwicklung (German Edition). You can add information and of course you can around the world by just a book. Absolutely right, due to the fact from book you can know everything! From your country until finally foreign or abroad you will end up known. About simple matter until wonderful thing you are able to know that. In this era, we could open a book or searching by internet unit. It is called e-book. You may use it when you feel bored to go to the library. Let's study.

Daniel Scholz:

What do you regarding book? It is not important with you? Or just adding material if you want something to explain what the ones you have problem? How about your spare time? Or are you busy person? If you don't have spare time to accomplish others business, it is make you feel bored faster. And you have spare time? What did you do? Every individual has many questions above. They have to answer that question since just their can do this. It said that about publication. Book is familiar in each person. Yes, it is right. Because start from on kindergarten until university need this particular Grundlagen der Vegetationsentwicklung (German Edition) to read.

Charles Powers:

Spent a free time and energy to be fun activity to complete! A lot of people spent their leisure time with their family, or their particular friends. Usually they performing activity like watching television, planning to beach, or picnic within the park. They actually doing same task every week. Do you feel it? Do you want to something different to fill your current free time/ holiday? Might be reading a book is usually option to fill your cost-free time/ holiday. The first thing you ask may be what kinds of publication that you should read. If you want to try look for book, may be the publication untitled Grundlagen der Vegetationsentwicklung (German Edition) can be great book to read. May be it may be best activity to you.

Debra Becnel:

People live in this new morning of lifestyle always aim to and must have the extra time or they will get lots of stress from both way of life and work. So , whenever we ask do people have spare time, we will say absolutely of course. People is human not really a robot. Then we question again, what kind of activity are you experiencing when the spare time coming to an individual of course your answer will unlimited right. Then do you try this one, reading guides. It can be your alternative in spending your spare time, the actual book you have read is usually Grundlagen der Vegetationsentwicklung (German Edition).
