A Resection of Time: The Strange Case of Kyle Woodson (Call of Cthulhu) Sam Johnson

The Strange Case of Kyle Woodson: A scenario at first, the death of successful archaeologist Kyle Woodson seemed an accident, an automobile crash turned fatal. When certain medical irregularities became apparent, and then the body was quickly cremated, the case became much more sinister to trained eyes. In this adventure, the investigators are challenged by the strange case of Kyle Woodson. Inquiries will take them across the United States of the 1990s, from San Francisco, and the Sanbourne Institute of Pacific Antiquities near Los Angeles, to decaying modern Arkham. In the end, all clues lead to ancient Mayan ruins, deep in Central America. This 64-page scenario book can be played in two to three nights. It contains twenty-five handouts, many featuring genuine Mayan glyphs and annotated translations. Artwork includes many thumbnails, several drawings of Mayan artifacts, and a number of beautiful gray-scale illustrations.
