MapReduce Design Patterns

Donald Miner, Adam Shook

MapReduce Design Patterns Donald Miner, Adam Shook

This handy guide brings together a unique collection of valuable MapReduce patterns that will save you time and effort regardless of the domain, language, or development framework you're using. Updated to include new versions of Hadoop, this second edition features several new patterns, such as transformation, join with a secondary sort, external join, and MapReduce over HBase.

Each pattern is explained in context, with pitfalls and caveats clearly identified to help you avoid common design mistakes when modeling your big data architecture. This book also provides a complete overview of MapReduce that explains its origins and implementations, and why design patterns are so important. All code examples are written for Hadoop.

From reader reviews:

Edward Foland:

Book is usually written, printed, or descriptive for everything. You can know everything you want by a book. Book has a different type. As we know that book is important factor to bring us around the world. Adjacent to that you can your reading proficiency was fluently. A e-book MapReduce Design Patterns will make you to end up being smarter. You can feel considerably more confidence if you can know about every little thing. But some of you think this open or reading some sort of book make you bored. It's not make you fun. Why they might be thought like that? Have you in search of best book or acceptable book with you?

Bonnie Abramowitz:

What do you concerning book? It is not important together with you? Or just adding material when you really need something to explain what your own problem? How about your time? Or are you busy particular person? If you don't have spare time to accomplish others business, it is gives you the sense of being bored faster. And you have free time? What did you do? Everyone has many questions above. The doctor has to answer that question because just their can do that will. It said that about publication. Book is familiar on every person. Yes, it is suitable. Because start from on pre-school until university need this particular MapReduce Design Patterns to read.

Carmen Vasquez:

Reading a guide can be one of a lot of activity that everyone in the world likes. Do you like reading book therefore. There are a lot of reasons why people love it. First reading a publication will give you a lot of new details. When you read a e-book you will get new information because book is one of several ways to share the information or maybe their idea. Second, reading through a book will make an individual more imaginative. When you studying a book especially fiction book the author will bring one to imagine the story how the people do it anything. Third, you could share your knowledge to other folks. When you read this MapReduce Design Patterns, it is possible to tells your family, friends as well as soon about yours e-book. Your knowledge can inspire different ones, make them reading a reserve.

Dena Ramirez:

As a scholar exactly feel bored to help reading. If their teacher requested them to go to the library or even make summary for some book, they are complained. Just minor students that has reading's heart or real their interest. They just do what the instructor want, like asked to the library. They go to at this time there but nothing reading significantly. Any students feel that studying is not important, boring as well as can't see colorful pictures on there. Yeah, it is to be complicated. Book is very important in your case. As we know that on this period of time, many ways to get whatever you want. Likewise word says, ways to reach Chinese's country. So , this MapReduce Design Patterns can make you truly feel more interested to read.
